CPC Named a 2021 Top Workplace

Survey gauges employee engagement, satisfaction and organizational health

St. Paul, Minn. – June 21, 2021 – [CPC \(Colder Products Company\)](#) has been named a 2021 Top Workplace, ranking among the top organizations in Minnesota for employee engagement, satisfaction and organizational health. The program recognizes the state's most progressive employers based on the results of employee opinion surveys.

This year's survey included responses from more than 76,000 employees at public, private and nonprofit organizations in Minnesota. To qualify as a Top Workplace, an employer must have more than 50 employees in the state. CPC employs more than 1,000 people worldwide, with more than 800 located in its Twin Cities operations. The company's staff has grown by 67% since June 2020.

The Top Workplace survey measures employee engagement on a variety of factors including pay and benefits, work-from-home policies, and belief in an employer's values and mission. CPC also was recognized as a Top Workplace last year by the Star Tribune, Minnesota's largest newspaper, which sponsors the program.

CPC President Janel Wittmayer credits CPC's people for making the company a great place to work. "We've always valued teamwork and a positive, passionate culture," Wittmayer said. "This year's recognition is an even greater testament to the importance of a cohesive, engaged team. We've navigated the pandemic, remote working, a move to a new headquarters and significant growth in our business. Additional COVID-related demand for our products, especially from vaccine manufacturers, tested our capacities but the CPC team has thrived through it all."

CPC has operations in the United States and China; a sales, engineering and customer service office in Germany; sales offices in 13 countries, and nearly 200 distributor partners around the globe. The company's new 132,000-square-foot headquarters and manufacturing facility opened in Roseville, Minn., in July 2020.
