FOR IMMEDIATE RELEASE

NEW COLDER PRODUCTS CATALOG OFFERS MORE THAN 7,000 QUICK-COUPLING PRODUCTS

St. Paul, Minn. – October 15, 2007 – Colder Products Company, the leader in quick disconnect couplings and fittings for plastic tubing, today announced its new Quick Couplings and Fittings catalog is available. The catalog provides a full-color, 112-page, specifying resource detailing more than 7,000 of the company’s products, including its newest product lines and additions. Colder couplings feature an easy-to-use thumb latch for quick disconnect and an audible “click” to verify a secure, leak-free connection. The new Colder catalog combines the company’s full list of product lines across all markets into one concise resource for virtually every fluid or air handling application, complete with fittings and accessories

The catalog’s newest product offerings include polypropylene couplings with 1/4-28 threads and a flat bottom port for small diameter rigid tubing. The non-spill couplings are available in 1/8” to 1/2” ID for applications where a few drops pose a problem regarding safety, media cost or environmental regulations. The IdentiQuik[®] Series of smart couplings are RFID-enabled couplings used on equipment and in fluid management processes. Another new product offering, DrumQuik[®] PRO, is an easy-to-use product for extracting chemicals from rigid bulk containers. The DrumQuik PRO’s closed-system

(more)

design and rugged construction meet the strict safety requirements of chemical handling and food applications, as well as the demands of harsh operating environments.

The catalog's clear and logical layout enables users to locate products quickly. Technical data, provided for engineers and specifiers, includes detailed flow and pressure graphs, as well as product and panel mount opening dimensions. The catalog's technical section features custom capabilities, chemical product material descriptions, a chemical compatibility chart, sterilization information and regulatory/compliance data.
