Colder Products Company hires Davies European Bio Applications Specialist

ST. PAUL, Minn. – July 18, 2013 – [Colder Products Company](#), the leading provider of single-use connectors and sterile connection technologies for biopharmaceutical processing, has hired Russell Davies as its new European Bio Applications Specialist. Davies will be focused on growing Colder's business with biopharmaceutical manufacturers and will work with the company's European regional sales managers to help support local product distribution and key OEMs.

Davies has extensive experience in the life sciences and high technology industries and is a graduate of Northampton Nene College (U.K.) He will be based in Warwickshire, England.

Colder Products Company designs and manufactures a broad line of innovative single-use connectors that create quick and easy sterile connections between flexible bag systems, tube assemblies, bioreactors and other bioprocessing equipment—while minimizing the time, costs and cross-contamination risks associated with reusable components. Colder's designs offer flexibility to easily combine various components and systems while maintaining product integrity.
